

Tool Post Grinder ON Lathe

For Internal Grinding

Standard Accessories

1. Internal Spindle	1
2. Pulley for Internal Grinding	2
3. Flat Belt	1
4. Diamond tool	1
5. Holder for Diamond Tool	1
6. key Folds (8, 5, 3, 2mm)	4

Special Accessories

7. Balancing Stand
8. Mandrel for VGR-165 only
9. Flange and Balancing Weight
10. Spindle For Longer Internal Grinding for VGR-165 only

Characteristic Features

- Both the main shafts have been specially designed, and the world-wide precision bearing is used to fit the main shafts which are made of alloy steel heat-treated for high wear resistance, precision, as well as maintaining to the lowest temperature for durability and stability.
- The motor base and the spindle bushing are adjustable.
- The motor is well designed with a special and nice appearance, The R.P.M. of this motor varies depending on the size of the workpiece.
- This grinder is capable of grinding the work piece to a minimum of 3mm in outer diameter and from 2mm up in inner diameter (bore) with the accuracy within 0.003mm and a well finished surface. (supplied with special attachments). The spindle bushing is made of cast iron, and supported by three surfaces. Therefore, it is durable and elastic.
- Materials such as steel, iron, copper (brass), aluminum, cast iron, plastics, porcelain, marble, regardless of being heat treated or not, can be ground on this machine which functions like a cylindrical grinder. So it may lower the cost of the production.

※Types of Grinding For Work Pieces
